

## Acer Business Class Systems

A major problem with "big box" stores is that they cater to the home user. That is all fine and good if you're looking for a home computer. It is the last thing you want if you need a computer for use in any business. including a home based one. Next time you visit a store ask them to explain the different Microsoft Operating Systems. If you have a office full of XP Pro machines why switch to Vista? Ask to see their XP Pro machines. We have name brand systems and custom built solutions. All of our Vista systems are MS Office Ready and come preloaded with a 60 day trial version of Office 2007 Pro. Ask us about the different versions of Office and which one is appropriate for your needs. All systems can be downgraded to XP Pro, fees apply.

### Light User \$399

**Acer** mid tower, Dual Core Celeron 1.6GHz, 1GB DDR2 RAM, 160GB HD, DVDRW, GB NIC, Add 1GB RAM \$20  
1 year onsite warranty\*.

## Acer Home Systems

Leave work at the office. You want to have fun on your computer at home. Maybe you need a small system for the kitchen so you can check email, have your recipes, watch TV. Turn up the power for a media center machine. Pull out all the stops for the ultimate gaming system. We have name brand systems and custom built solutions. Pre-built systems meet the need of many users. Custom systems offer much more flexibility. All systems have Microsoft Vista Home Premium unless otherwise noted. All Vista systems are MS Office Ready and come pre-installed with a 60 day trial version of Office Home & Student or higher. Ask about keys to unlock the software
