

Custom Computer Systems

Why buy an off-the-shelf computer system? Buying a computer is like buying a car. Everyone has likes and dislikes. Everyone needs something just a little different from the next guy. Don't like Vista? We can get you XP. Have lots of music, pictures, or movies? We can install multiple drives in a machine, up to 1.5TB each. Need really fast disk access? Ask us about striping drives or 10,000RPM drives. Want to be cutting edge? Add a Blu-Ray reader or writer. If you are a gamer add multiple video cards. All of our Vista systems are MS Office Ready and come preloaded (continued on back)

Base Mini Tower Systems

Custom Intel based system. Intel DG41TY MB.
Up to 8GB DDR2-800 RAM. DVI-D, VGA, GB NIC, 4 SATA, 5.1 sound, 2 PCI, 1 PCIe*1, 1 PCIe*16, 4 USB, PS/2 keyboard & mouse ports, printer port. Keyboard & mouse. Supports Blu-Ray in Vista. 720p, 1080p, 1920*1080, up to 2048*1536. Dual monitor support. With XP Home or Vista Home Basic. DVDWR has Lightscribe & Smart Erase.

Celeron 1.8GHz, 2GB, 160GB HD, DVDRW,	\$449

Custom Notebooks

(continued from front) with a 60 day trial version of Office 2007. Ask us about the different versions of Office and which one is appropriate for your needs. All systems can be loaded with XP Home or Pro, Vista Home Basic, Home Premium, Business, or Ultimate. Want to load your own O/S or Linux? We can do a no-O/S build on any CUSTOM system. Need a computer for a child or parent that isn't local? We can ship anywhere in the US. We can also set your new computer up in your home or office and connect it to networks, printers, and other devices. We do networks too.
